

Family Income Survey Form – 1 per family per school

The purpose of this survey is to collect data that will be used to determine the amount of funds available for the public school district to provide Title I instructional services to eligible students in our school. Determining the number of our students, by public school district of residence, who would qualify for free and reduced-price meals, accomplishes this. The information requested below is confidential. It is not necessary to provide your family name. **Thank you for your cooperation and prompt return of this form.**
